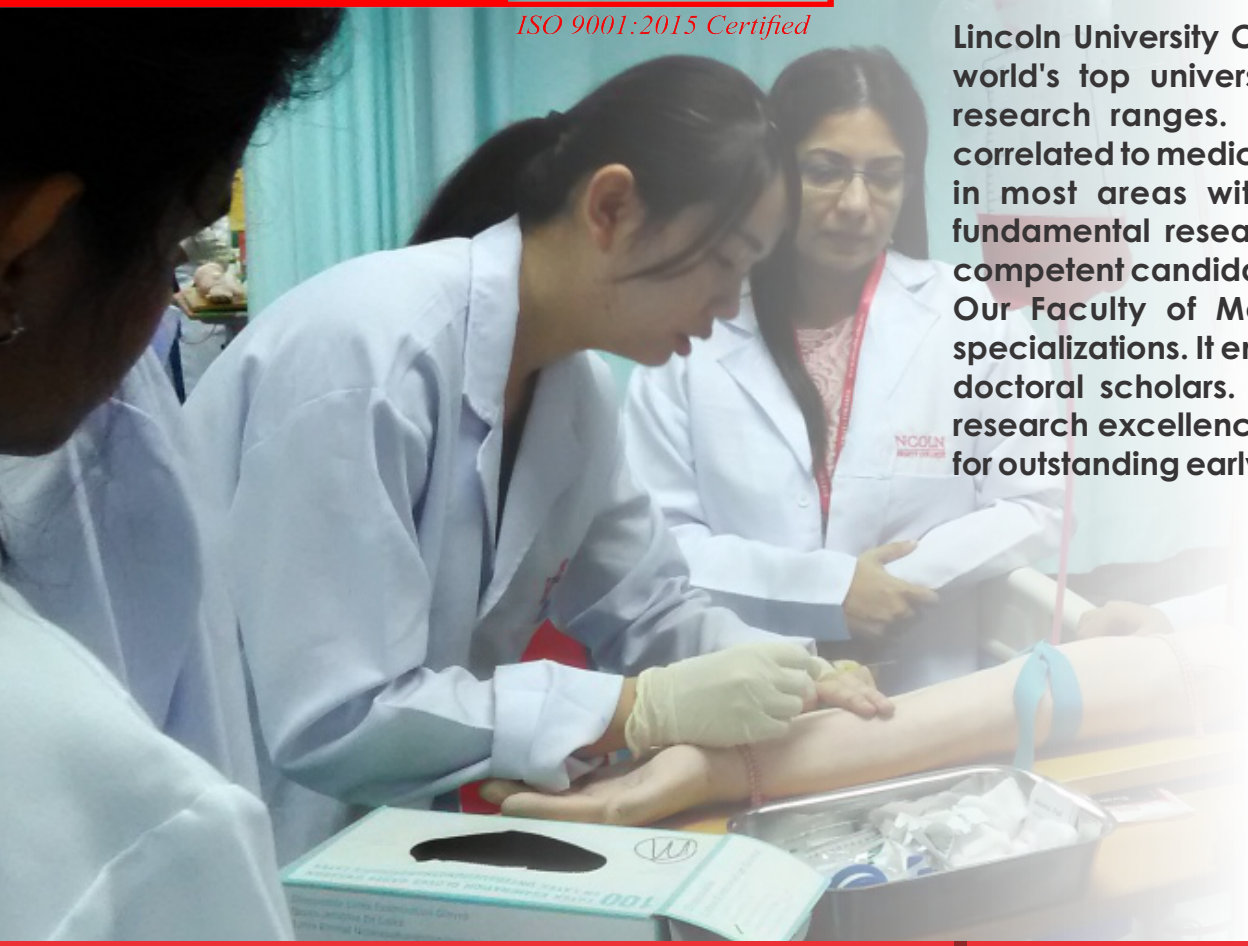
# *Faculty of* MEDICINE



**Lincoln University College's Faculty of Medicine is ranked among one of the world's top universities providing clinical, pre-clinical and health-related research ranges. Research here at LUC covers a wide range of topics correlated to medicine and health. The Faculty of Medicine provides education in most areas within health and medicine. Our research ranges from fundamental research to translational and practical research. We educate competent candidates for the health sector, as well as health-related research. Our Faculty of Medicine fosters leading edge research in a range of specializations. It endorses world-renowned research leaders and attracts new doctoral scholars. We are persistently seeking to enhance our sections of research excellence. We offer independent research development prospects for outstanding early career researchers.**
