

The Faculty of Nursing at Lincoln University College, Malaysia has fostered an interactive educational environment that formulates nursing students to become critically contemplative practitioners, educators, and professional leaders grounded in the doctrines of primary health care. Remarkable experiences, caring and skilled faculty, modern laboratories and study areas—there are lots of grounds to choose LUC's Faculty of Nursing. Our students obtain hands-on laboratory experiences during the program using advanced learning techniques and equipment, including cutting-edge patient simulation technology. They work to encourage health and prevent ailment in a variety of settings. As educators we are honored to guide the advancement of future generations of nurses and nurse leaders.
